

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robt Corwin
DOCKET NO.: 06-25167.001-R-1
PARCEL NO.: 04-24-300-032-0000

The parties of record before the Property Tax Appeal Board are Robt Corwin, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 50-year old, one and one-half story style dwelling of masonry construction containing 3,668 square feet of living area with a partial, unfinished basement. According to the appellant, the dwelling is one-story with 2,740 square feet of living area and has no basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted for consideration four comparable properties described as one-story masonry dwellings that range in age from 36 to 57 years old. The comparables contain from 2,105 to 3,345 square feet of living area and have improvement assessments ranging from \$15.18 to \$18.39 per square foot. According to the appellant, the subject's improvement assessment is \$20.82 per square foot, but that is based on the appellant's claim that the subject has 2,740 square feet of living area. However, the appellant produced no evidence to support this claim. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one and one-half story frame and masonry dwellings that range in age from 49 to 55 years old. The dwellings contain from 3,549 to 3,884 square feet of living area and have improvement assessments

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	23,104
IMPR.:	\$	57,052
TOTAL:	\$	80,156

Subject only to the State multiplier as applicable.

ranging from \$17.97 to \$18.64 per square foot. According to the board of review, the subject property has an improvement assessment of \$15.55 per square foot of living area, but that is based on the board of review's claim that the dwelling has 3,668 square feet of living area. To support this claim, the board of review provided the subject's property characteristic sheet. Based on this evidence, the board of review requested confirmation of the subject's assessment.

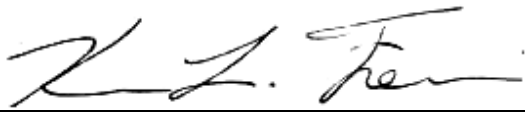

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The appellant claims that the dwelling is one-story with 2,740 square feet of living area, and the board of review claims that the dwelling is one and one-half story with 3,668 square feet of living area. The appellant submitted no evidence in support of its claim, but the board of review provided the subject's property characteristic sheet, which confirms their claim. Consequently, the Board finds that the comparables numbered one, three, and four by the board of review were the most similar to the subject in age, size, design, and/or exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.97 to \$18.64 per square foot of living area. The subject's improvement assessment of \$15.55 per square foot of living area falls below this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
